July 2022

Just a warning for anyone not familiar with the Boston area like I wasn't. The listing says free street parking, but that's extremely deceptive. Any street spot close is 2 hours max, if you can find somewhere. It is free between 8pm and 8 am, but you'd better have some other plan during the day.

And if there is more than one person or a couple coming, you should definitely bring an air mattress. There are two couches in the living area, one of which is so broken down it appears to have been found on the side of the road in front of a frat house, and a not terribly comfortable futon.
